December 18, 2015

President Cantore
Members of the Board of Commissioners
Citizens of the Forest Preserve District of DuPage County

The Comprehensive Annual Financial Report of the Forest Preserve District of DuPage County (District) for the fiscal year ended June 30, 2015, is hereby submitted as required by state law. The District is required to publish a complete set of financial statements presented in conformance with generally accepted accounting principles in the United States of America (GAAP) and audited in accordance with generally accepted auditing standards by an independent firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is compete and reliable in all material respects.

The District's basic financial statements have been audited by BKD, LLP., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of the District for the fiscal year ended June 30, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall basic financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the District's basic financial statements for the fiscal year ended June 30, 2015 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Profile of the Forest Preserve District of DuPage County

The Forest Preserve District of DuPage County was established by a county-wide referendum in June 1915. The District is a separate legal entity organized and existing under the Downstate Forest Preserve Act of the State of Illinois. The boundaries of the District encompass all of the property in DuPage County and 12 acres owned by the District in Kane County, Illinois. DuPage County is located west of Chicago in northeastern Illinois and is part of the Chicago metropolitan area. The District owns and manages over 25,000 acres of land or about 12% of DuPage County's 213,000 acres and serves a population of over 900,000. The District is empowered by state statute to levy a property tax on real properties located within DuPage County.

The Board of Commissioners (Board) is the governing body of the District and consists of six members elected from the County Board districts and the President elected county-wide. The President is elected to serve a four-year term and the remaining Board members serve four-year staggered terms with three members elected every two years. Policy making and legislative authority are vested in the Board of Commissioners. The Board of Commissioners has the authority to pass and enforce all ordinances, resolutions, motions, policies, rules and regulations for the operation and management of the property and the conduct of the business and affairs of the District. The Executive Director is responsible for carrying out the policies and ordinances adopted by the Board, for overseeing the day-to-day operations of the District, and for the hiring and supervision of all personnel in accordance with established guidelines.

The District is a special purpose district organized to acquire and hold lands for the purpose of preservation, conservation and restoration of the lands, together with their flora and fauna in their natural state and condition for the purpose of the education, pleasure and recreation of the public. Lands may also be acquired and used to store flood waters, or control other drainage and water conditions. The District is dedicated to achieving an equitable balance between open space and urban development; controlling and conserving the County's aesthetic, biological and water resources through the tenancy of open space; and providing education and recreation to the community through the preservation of natural lands.

The annual budget serves as the foundation for the District's financial planning and control. The President prepares annual budget guidelines to be approved by the Board at the first Commission meeting in March. All departments of the District are required to submit their budget requests to the Executive Director, who uses these requests as the starting point for developing the comprehensive proposed budget. The proposed budget is presented to the Board for review and revision during the developmental process. The Board holds a public hearing on the proposed budget and may make changes prior to adoption. The budget and appropriations must be adopted by September 30 but historically are adopted in June. The appropriated budget is prepared by fund and department (e.g. natural resources). The budgetary level of control is at the expenditure class level; however, state law provides for a legal level of control for compliance purposes at the fund level. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted (five year budgets are adopted for capital project funds financed with property tax revenues as provided by state statute).

Major Initiatives for the Year and the Future

Significant capital improvements are underway at the Oak Meadows Golf Preserve. These improvements will enhance and expand the natural landscape within the preserve, improving storm water retention, developing additional wetlands, and reducing the golf footprint within the preserve.

The District completed a strategic plan during fiscal year 2015.

Significant wetland restoration work is well underway, including the Dunham Wetland Habitat Improvement Project, and the Wetland Aquatic and Riparian Program (WARP). These programs are largely funded with non-tax based revenues. Recently, the District completed a substantial waters mitigation project at St. James Farm.

The Board of Commissioners approved an administrative reorganization, which was mostly complete by the end of the fiscal year. The District successfully achieved the expected efficiencies and expense savings through this reorganization effort.

In the area of technology improvements, the District recently implemented a new on-line reservation system. This system provides residents with on-line access to purchase permits and make program reservations.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local economy

The County of DuPage has a diverse business community consisting of construction, manufacturing, government, warehousing and distribution, health care industries, retail trade, wholesale trade, and professional, scientific and technical services. Unemployment rates in DuPage County continue to be lower than the Chicago metropolitan area, the State of Illinois, or the national average. Excellent highway and railroad systems contribute to its continued success.

DuPage County experienced an unemployment rate of 6.9% for September 2015 faring better than the State of Illinois, the Chicago metropolitan area and the nation. The housing sector has been affected with home sales down and foreclosures up. The 2014 equalized assessed valuation (EAV) for the county decreased .9%.

Real estate tax revenue is the primary revenue source for the District's governmental funds. The District is subject to the Property Tax Extension Limitation Law of the State of Illinois, as amended. In general, this restricts the amount of annual increase in property taxes to the lesser of 5% or the percentage increase in the Consumer Price Index in the calendar year preceding the levy year. Taxes can also be increased due to assessed valuation increases from new construction, referendum approval of tax rate increases, and consolidation of local government units. The District anticipates that property tax collections will be relatively unaffected by current economic conditions.

The District maintained a strong financial position during the fiscal year and management is confident this will continue during fiscal 2015/2016.

Long-term financial planning

The District has a five year financial plan which contains projections of revenues and expenses for the operating funds. This plan is reviewed, revised and updated annually. The plan has been an effective tool in determining the best allocation of available resources.

The District has a significant inventory of capital equipment which is required to provide services to the public and achieve our mission of conservation and restoration. The fleet vehicle and equipment policy provides the basis for projecting maintenance and replacement needs in advance thereby avoiding significant funding fluctuations from year to year.

The District has developed an inventory of buildings and other structures and amenities and continues to identify maintenance and replacement needs to project rehabilitation and replacement costs several years in advance.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Forest Preserve District of DuPage County for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2014. A copy of this award is located in the introductory section of the financial statements. This was the twenty-eighth consecutive year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report on a timely basis was made possible through the efficient and dedicated services of the entire staff of the Finance Department. We express our appreciation to all members of the department who assisted and contributed to the preparation of this report, especially our Budget and Financial Reporting Manager, Tina Ward. Credit must also be given to President Cantore and the Board of Commissioners for their unfailing support for maintaining the highest standards of professionalism in the management of the Forest Preserve District of DuPage County's finances.

Respectfully submitted,

Jack Hogan

Presented to

Forest Preserve District of DuPage County, Illinois

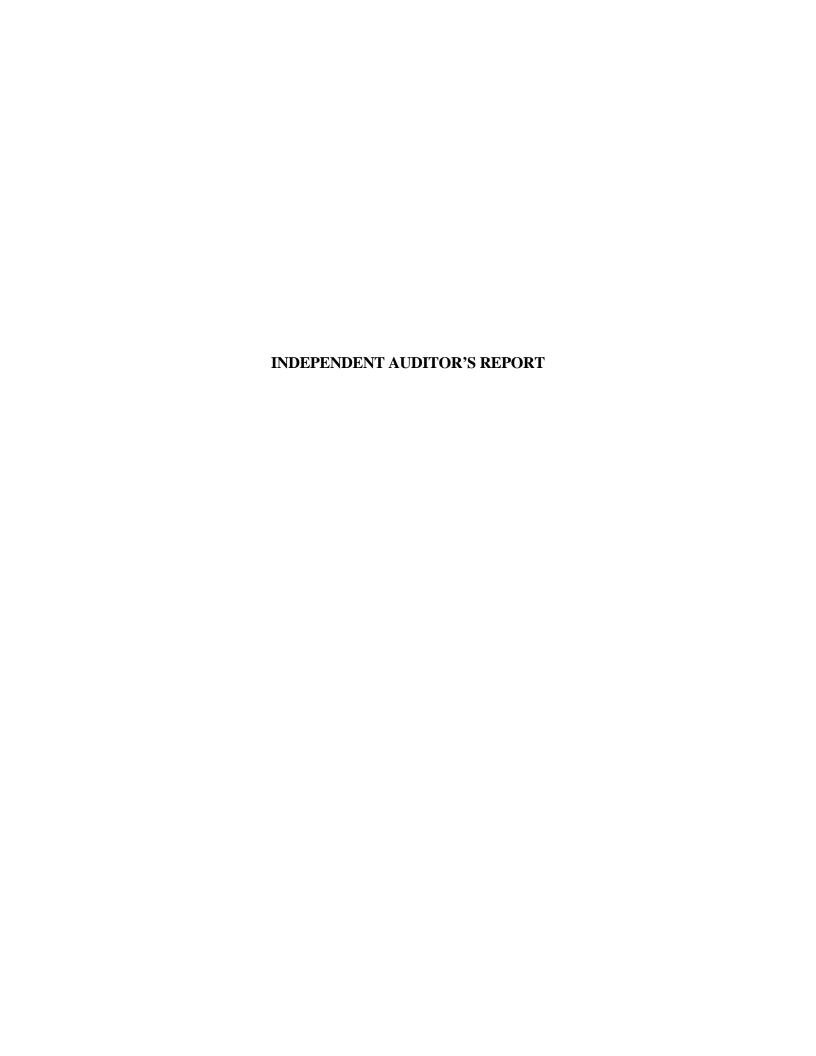

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

June 30, 2014

Executive Director/CEO

Independent Auditor's Report

The Honorable President Members of the Board of Commissioners Forest Preserve District of DuPage County, Illinois

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Forest Preserve District of DuPage County, Illinois, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

The Honorable President Members of the Board of Commissioners Page 2

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Forest Preserve District of DuPage County, Illinois as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As disclosed in Note 1 to the financial statements, in 2015 the District adopted new accounting guidance required by Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, as amended by Governmental Accounting Standards Board Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison, pension and other post-employment benefit related information on pages 4-16 and 63-75 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The information on the budgetary comparison schedules for the year ended June 30, 2014, was audited by other auditors whose report dated December 5, 2014, expressed an unmodified opinion on such information in relation to the basic financial statements for the year ended June 30, 2014, taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Forest Preserve District of DuPage County, Illinois' basic financial statements. The introductory section, combining and individual fund financial statements and

The Honorable President Members of the Board of Commissioners Page 3

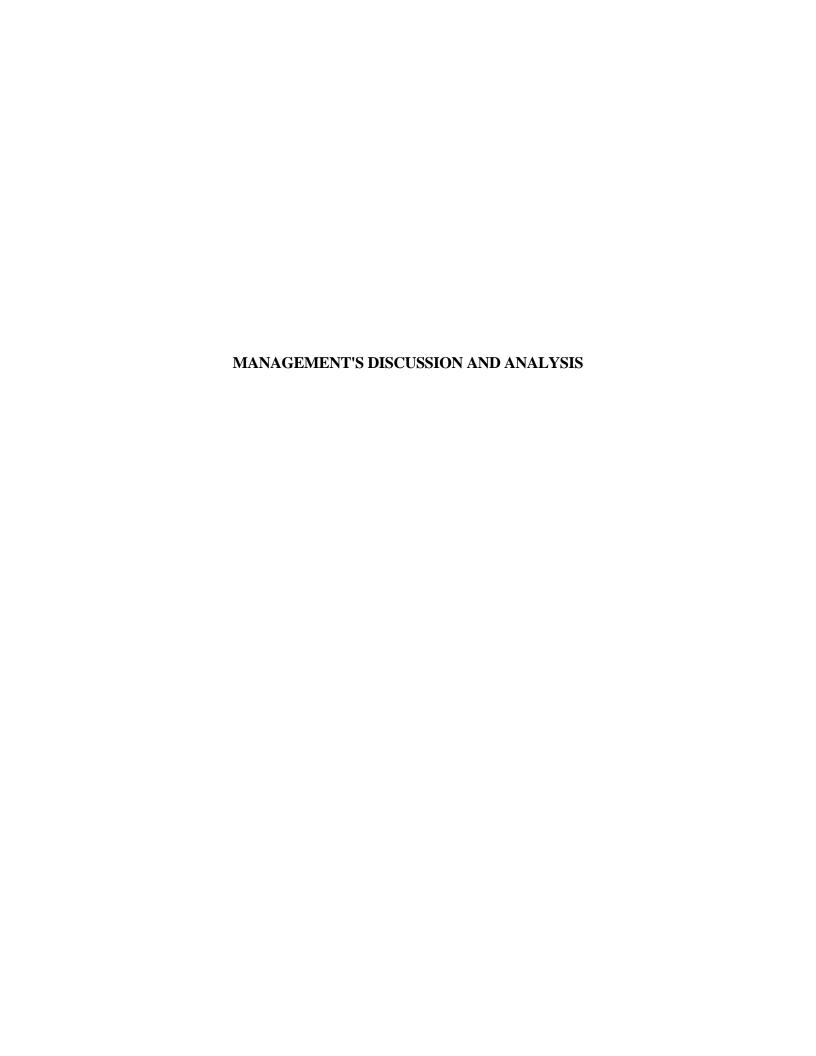

schedules, supplemental data and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The 2015 combining and individual fund statements and schedules and supplemental information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the combining and individual fund statements and schedules and supplemental information for the year ended June 30, 2015, are fairly stated, in all material respects, in relation to the basic financial statements as a whole. The other information included in the combining and individual fund statements and schedules and supplemental information for the year ended June 30, 2014, was audited by other auditors whose report dated December 5, 2014, expressed an unmodified opinion on such information in relation to the basic financial statements for the year ended June 30, 2014, taken as a whole.

The introductory and statistical sections are presented for additional analysis and are not required parts of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Oakbrook Terrace, Illinois December 18, 2015

Forest Preserve District of DuPage County, Illinois

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2015

The Forest Preserve District of DuPage County's (the "District") Management's Discussion and Analysis is designed to (1) assist the reader in focusing on significant issues, (2) provide an overview of the District's financial activity, (3) identify changes in the District's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Transmittal Letter (beginning on page ii) and the District's financial statements (beginning on page 17).

Financial Highlights

- The District's total net position increased \$13,324,122 (2.1%) from \$646,170,933 at June 30, 2014 (as restated) to \$659,495,055 at June 30, 2015. Governmental activities net position increased \$13,979,674 (2.3%) from \$619,207,215 (as restated) to \$633,186,889, while business-type activities net position decreased by \$655,552 (2.4%) from \$26,963,718 (as restated) to \$26,308,166.
- Capital assets increased, mostly due to Building improvements. The District's liabilities and deferred inflows of resources decreased \$ 6,736,531 versus the prior year.
- The District's governmental funds reported combined ending fund balances of \$282,959,686, a decrease of \$6,073,465 from the prior year. At the end of the current fiscal year, the unassigned fund balance for the General Fund was \$3,653,476 an increase of \$227,489. This increase is due to transfers in from other funds in excess of the net deficiency of Revenues over Expenditures for the year. The fund balances of governmental funds covered by the District's policy on fund balances meet or exceed the required balance.
- The District's total revenues were \$ 5,667,988 (7.6%) lower than the prior fiscal year.
- The District's total expenses were \$2,039,924 (3.5%) lower than the prior fiscal year.
- The District retired \$20,995,000 in bonds during the fiscal year, and recognized \$3,580,742 in accreted interest on capital appreciation bonds.

Using the Financial Section of the Comprehensive Annual Report

The financial statement's focus is on both the District as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year-to-year or government to government) and enhance the District's accountability. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial

For the Fiscal Year Ended June 30, 2015

statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements (see pages 17-19) are designed to be corporate-like, in that all governmental and business-type activities are consolidated into columns which add to a total for the Primary Government. The focus of the Statement of Net position (the "Unrestricted Net position") is designed to be similar to bottom line results for the District and its governmental and business-type activities. This statement combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities (see pages 18 and 19) is focused on both the gross and net cost of various activities (including governmental and business-type), which is supported by the government's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

The Governmental Activities reflect the District's basic services, including public safety, public works, conservation, education, recreation, interest on debt and administration. Property taxes, shared income taxes, and investment earnings finance the majority of these services. The Business-type Activities reflect private sector type operations (golf), where the fee for service typically covers all or most of the cost of operation, including depreciation.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. All funds of the District can be divided into three categories: governmental, proprietary, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

For the Fiscal Year Ended June 30, 2015

The District maintains 41 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, three special revenue funds and one debt service fund, which are considered to be major funds. Data from the other 32 governmental funds are combined into a single, aggregated presentation.

The District adopts an annual budget for the General Fund and all special revenue funds and a five-year budget for capital project funds financed with property tax revenues as provided by state statutes. A budgetary comparison statement for the General Fund has been provided to demonstrate compliance with the budget. Budgetary comparisons for the other funds can be found elsewhere in the report.

The basic governmental fund financial statements can be found on pages 20-25 of this report.

Proprietary Funds

The District maintains only one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses one enterprise fund to account for its Oak Meadows, Green Meadows, and Maple Meadows golf operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements can be found on pages 26-28 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of fiduciary funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. For several years the District maintained one agency fund. This fund was discontinued in 2014, has no net financial position, and is included in this report for prior year's comparisons only.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 29-62 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the budgetary comparison to actual for all funds for which a budget is adopted, as well as the District's funding progress under its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 63-75 of this report.

For the Fiscal Year Ended June 30, 2015

Government-Wide Financial Analysis

Statement of Net Position

Net position may serve over time as a useful indicator of a government's financial position. In the case of the Forest Preserve District of DuPage County, assets exceeded liabilities by \$659,495,055 at the close of the most recent fiscal year.

The largest portion of the District's net position (76.2%) reflect its net investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services and recreation to its citizens; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the District's net position, \$228,954,471, represents resources that are subject to external restrictions on how they may be used. The remainder of 'net position', \$(71,642,251) indicates that additional resources are required to meet the Districts ongoing obligations to citizens and creditors.

For the Fiscal Year Ended June 30, 2015

The following table presents a condensed Statement of Net position. For more detailed information, see the Statement of Net position found on page 17.

Forest Preserve District of DuPage County Statement of Net Position as of June 30, 2015 and 2014

	Government Activities		Business Activities		Total

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net position summary presentation.

<u>Net Results of Activities</u> – which will impact (increase/decrease) current assets and unrestricted net position.

Borrowing for Capital – which will increase current assets and long-term debt.

<u>Spending Borrowed Proceeds on New Capital</u> – which will reduce current assets and increase capital assets. There is a second impact, an increase in invested in capital assets and an increase in related net debt which will not change the net investment in capital assets.

<u>Spending of Non-borrowed Current Assets on New Capital</u> – which will (a) reduce current assets and increase capital assets, and (b) will reduce unrestricted net position and increase invested in capital assets, net of debt.

<u>Principal Payment on Debt</u> – which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net position and increase net investment in capital assets.

Reduction of Capital Assets through Depreciation – which will reduce capital assets and net investment in capital assets.

For the Fiscal Year Ended June 30, 2015

Current Year Impacts

The District's total combined net position increased by \$13,324,122 during the current fiscal year.

Capital assets increased, mostly due to a slight increase in Buildings and Structures. The District's long-term liabilities decreased versus the prior year, due primarily to debt repayments.

For the Fiscal Year Ended June 30, 2015

Changes in Net Position

A review of the changes in net position provides the reader with information on the results of the year's operations. The following table shows condensed information from the government-wide Statement of Net Activities.

For the Fiscal Year Ended June 30, 2015

Normal Impacts

There are eight basic impacts on revenues and expenses as reflected below.

Revenues:

Economic Conditions – which can reflect a declining, stable or growing economic environment and has a substantial impact on state income and property tax revenue as well as public spending habits for elective user fees and recreation.

Increase/Decrease in District approved rates – while certain tax rates are set by statute, the District Board has significant authority to impose and periodically increase/decrease rates (permit fees, golf fees, etc.)

Changing Patterns in Intergovernmental and Grant Revenue (both recurring and non-recurring) – certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year-to-year comparisons.

Market Impacts on Investment Income – the District's combined investment portfolio is managed using a longer average maturity than most governments and the market condition may cause investment income to fluctuate more than alternative shorter-term options.

Expenses:

Introduction of New Programs – within the functional expense categories (Conservation and Recreation, General Government, Public Safety, etc.) individual programs may be added or deleted to meet changing needs.

Changes in Authorized Personnel – changes in service demand may cause the Board to increase/decrease authorized staffing. 67% of the District's operating budget is for salary and related benefits.

Salary Increases (annual adjustments and merits) – the ability to attract and retain human and intellectual resources requires the District to strive for a competitive salary range position in the marketplace.

Inflation – while overall inflation appears to be reasonably modest, the District is a consumer of utilities and certain commodities such as fuels, parts, and supplies. Some areas may experience higher than average increases.

Current Year Impacts

Governmental Activities

Governmental activities increased the District's net position by \$13,979,674. Key elements of this net change are as follows:

For the Fiscal Year Ended June 30, 2015

Revenues:

Revenues from governmental activities totaled \$66,524,698 for the fiscal year, a decrease of \$5,273,872 or 7.4%. Property taxes, the District's largest source of revenue, increased by \$1,118,337 from the previous fiscal year. The Property Tax Limitation Law limits the annual growth in the amount of property taxes to be extended for certain non-home rule units, including the District. In general, the annual growth permitted is the lessor of 5% or the percentage increase in the Consumer Price Index during the calendar year preceding the levy year. Taxes can be increased due to new construction, referendum approval of tax rate increases, mergers or consolidations. General obligation bonds, notes, and installment contracts payable from ad valorem taxes unlimited as to rate and amount cannot be issued unless they are approved by referendum, alternate bonds, or for certain refunding purposes.

Unrestricted investment earnings were \$5,735,035, a decrease of \$938,500 over the prior year. Interest earnings (primarily bond coupon payments) were strong both years. A slight uptick in interest rates during this fiscal year resulted in some unrealized losses within the District's long term asset holdings for the year.

Operating Grants reflects a decrease of \$5,130,456 year over year. This is due to fluctuations from non-recurring grants.

Expenses:

Expenses from governmental activities totaled \$52,481,524 for the fiscal year, a decrease of \$1,797,431. The largest decreases were in conservation and recreation, and interest on long term debt.

Expenses by source as a percentage of total expenses were as follows:

General government	19.3%
Public safety	6.8%
Public works	3.1%
Conservation and recreation	52.3%
Interest on long-term debt	18.5%

Business-type Activities

Business-type activities decreased the District's net position by \$655,552. Key elements of this net change are as follows:

Revenues:

For the fiscal year, revenues for the business-type activities totaled \$2,909,292, a decrease of \$410,082 or 12.4%. Charges for services decreased \$393,640 from the previous year.

Revenues by source as a percentage of total revenues were as follows:

Charges for services	99.5%
Unrestricted investment earnings & Other	0.5%

For the Fiscal Year Ended June 30, 2015

Expenses:

Total expenses for the business-type activities for the fiscal year were \$3,628,344, a decrease of \$258,459 from the previous fiscal year.

Major Governmental Funds

The **General Fund** is the primary operating fund of the District. At the end of the current fiscal year, the unassigned fund balance was \$3,653,476, while the total fund balance was \$4,317,201. As a measure of the General Fund's liquidity, it is useful to compare unassigned fund balance to total fund expenditures. The unassigned fund balance represents 14.8% of total General Fund expenditures. The fund balance increased by \$197,934.

The **District-Wide Environmental Fund** is a special non-tax revenue fund established to pay costs associated with environmental requirements at any of the District's inactive landfill sites or any other property presently owned or acquired in the future. In addition, funds are available for transfer to the General Fund. The fund balance decreased by \$2,718,038, primarily due to 'transfers out' to other funds that exceeded the funds revenues.

The **Landfill Expense Mallard Lake Fund** was created to account for revenues and surcharges imposed on users of the landfill prior to its closure. These revenues are restricted to pay post-closure maintenance, improvements and environmental expenses for the site. Revenues from investment earnings may be transferred to the General Fund or for other properly identified and appropriated purposes. The fund balance decreased by \$1,098,596, primarily due to 'transfers out' to other funds that exceeded the funds revenues.

The Landfill Expense Greene Valley Fund was created to account for revenues and surcharges imposed on users of the landfill prior to its closure. These revenues are restricted to pay post-closure maintenance, improvements, and environmental expenses for the site. Revenues from investment earnings may be transferred to the General Fund or for other properly identified and appropriated purposes. The fund balance decreased by \$580,679, primarily due to 'transfers out' to other funds that exceeded the funds revenues.

The **Acquisition and Development Series 2000 Fund** is a debt service fund to account for revenues and expenditures associated with servicing of debt. The fund balance increased by \$159,573. In part this is due to investment income earned on unspent funds during the year.

For the Fiscal Year Ended June 30, 2015

General Fund Budgetary Highlights

	Original	Final	
	Budget	Budget	Actual
	•

Change in Fund Balance	(1,552,271)	(1,334,586)	197,934

Actual revenues were \$344,329 (or 1.6%) higher than budgeted amount. This is due to higher than expected non-recurring grants, and State shared revenues.

Actual expenditures were \$1,245,806 (or 4.10%) less than the budgeted amount. General government expenditures were \$407,229 (or 4.6%) under budget. Savings versus budget came primarily from 'Supplies' and Professional and other Services'.

The District annually levies a tax and adopts a budget and appropriates for construction and development. In accordance with state statutes, the appropriations for these capital projects funds do not lapse for a period of five years and at the end of five years any assets remaining are transferred to the General Fund.

For the Fiscal Year Ended June 30, 2015

Capital Asset and Debt Administration

Capital Assets

The Forest Preserve District of DuPage County's investment in capital assets for its governmental and business-type activities as of June 30, 2015, amounts to \$620,162,402 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and structures, equipment, and construction in progress. The total increase in the District's investment in capital assets for the current fiscal year was .01%.

The major capital asset event during the fiscal year was for land acquisition.

Additional information on the District's capital assets can be found in Note 4 on pages 39 and 40 of this report.

Long-Term Debt

The District currently maintains an "AAA" rating from Standard & Poor's and an "Aaa" rating from Moody's for general obligation debt. A strong tax base, high wealth and income level, population base, strong financial operations with strong reserves, operational flexibility, prudent management, and low debt burden were items reflected in the latest ratings assignments.

At the end of the current fiscal year, the District had total bonded debt outstanding of \$191,729,637, all of which is general obligation debt backed by the full faith and credit of the District, and is for governmental activities. The District retired \$20,995,000 in general obligation bonds and recognized \$3,580,742 in accreted interest on capital appreciation bonds.

Forest Preserve District of DuPage County, Illinois Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2015

State statutes limit the amount of general obligation debt a governmental entity may issue to 2.3% of its total assessed valuation. The current debt limitation for the District is \$747,605,170, which is significantly in excess of the District's current outstanding general obligation debt.

For more information on the District's long-term obligations, see Note 6 to the financial statements.

Economic Factors

The District operates solely in DuPage County and is affected by the local economic conditions of the County as a whole. The County has a diverse business community; unemployment rates are lower in DuPage County than in the Chicago metropolitan area, the State of Illinois and the national average.

Requests for Information

This financial report is designed to provide a general overview of the Forest Preserve District of DuPage County's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance and Administration, 3 S. 580 Naperville Road, P. O. Box 5000, Wheaton, IL 60189.

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position

June 30, 2015

Total Fund Balance - Governmental Funds	\$ 282,959,686
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.	596,836,833
Long-term receivables are not financial resources and, therefore, are not reported in the governmental funds.	868,933
Long-term liabilities, including bonds payable are not due and payable in the current period and, therefore, are not reported in governmental funds.	(191,729,637)
Losses on issuance of refunding bonds are reported as a deferred outflow and amortized over the life of the bonds in the Statement of Net Position.	9,831,266
Premiums on bonds are an other financing source in the year of issuance but are shown as an increase in bonds payable and amortized over the life of the bonds in the Statement of Net Position.	(10,185,554)
Discounts on bonds are an other financing use in the year of issuance but are shown as a decrease in bonds payable and amortized over the life of the bond in the Statement of Net Position.	94,392
The liability for environmental cost reserves is not due and payable in the current period and, therefore, is not reported in governmental funds.	(46,000,000)
The long-term portion of claims liability is not due and payable in the current period and, therefore, is not reported in governmental funds.	(212,510)
Compensated absences payable are not due and payable in the current period and, therefore, are not reported in governmental funds.	(3,782,616)
Accrued interest on long-term liabilities is shown as a liability in the Statement of Net Position.	(1,213,412)
Net pension liability is not due and payable in the current period and, therefore, is not reported in governmental funds.	(10,658,414)
The IMRF deferred inflows and outflows of resources do not require the use of current financial resources and, therefore, are not reported as liabilities in governmental funds.	6,598,595
Net other post-employment benefits obligation is not due and payable in the current period and, therefore, is not reported in governmental funds.	(220,673)
Net Position of Governmental Activities	\$ 633,186,889

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance of Governmental Funds to the Statement of Activities

Year Ended June 30, 2015

Net Change in Fund Balance - Total Governmental Funds	\$ (6,073,465)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures; however, they are capitalized in Statement of Net Position.	4,543,757
Depreciation expense does not require the use of current financial resources and, therefore, is not reported as expenditures in governmental funds.	(3,057,730)
Receivables in the Statement of Net Position that do not provide current financial resources are not reported in the fund financial statements. This is the net change in notes receivable during the year.	168,933
Governmental funds report proceeds from the sale of capital assets while the governmental activities report gains and losses on sales of fixed assets. This is the remaining book value of the disposed assets.	(5,892)
The repayment of long-term debt is reported as an expenditure when due in governmental funds but as a reduction of principal outstanding in the Statement of Net Position.	20,995,000
The issuance of long-term debt is reported as an other financing source in governmental funds but as an increase of principal outstanding in the Statement of Net Assets.	(29,270,000)
The payment to the refunded bond escrow agent is reported as an other financing use in the governmental funds but is amortized as a component of gain or loss on refundings in governmental activities.	34,529,257
The premium on bonds issued is reported as an other financing source in the governmental funds, but as an increase in principal outstanding in the Statement of Net Position.	(5,570,713)
The accretion of long-term debt is not reported as an expenditure when bonds accrete in governmental funds but as an addition to principal outstanding in the Statement of Net Position.	(3,580,742)
The amortization of premiums on bonds, discounts on bonds and losses on refunding are not a use of financial resources in the governmental funds.	36,106
The decrease in accrued interest on long-term debt is shown as a decrease of expense on the Statement of Activities.	824,037
The decrease in the compensated absences liability is shown as an decrease of expense on the Statement of Activities.	1,696,697
Changes in net other post-employment benefits obligations are reported only in the Statement of Activities.	(86,692)
Changes in the net pension liability and the IMRF deferred outflow of resources do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds	(1,083,178)
The increase in the long-term portion of the claims liability is shown as an increase of expense on the Statement of Activities.	(85,701)

Notes to the Financial Statements June 30, 2015

1. Summary of Significant Accounting Policies

The financial statements of the Forest Preserve District of DuPage County, Illinois (District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The District is a legally separate political subdivision of the State of Illinois. It is governed by a President and a six-member Board of Commissioners. As required by generally accepted accounting principles, these financial statements present the District (the primary government) and its component units. In evaluating how to define the reporting entity, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made based upon the significance of its operational or financial relationship with the primary government.

The District has determined that no outside agency meets the above criteria and, therefore, no other agency has been included as a component unit in the District's financial statements. Prior to December 2002, the District was a component unit of DuPage County and was included as a blended component unit in DuPage County's financial statements. Effective December 2002, the District reorganized its board structure and became an independent unit of government.

B. Basis of Presentation

The accounts of the District are organized and operated on the basis of funds. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into the following categories: governmental and proprietary.

Governmental funds are used to account for the District's general activities. The General Fund is the primary operating fund, accounting for all financial resources not required to be accounted for in another fund. Special revenue funds account for revenue sources that are legally restricted for specific purposes (except for capital projects funds). The Debt Service Fund accounts for the servicing of general long-term debt. Capital projects funds account for the acquisition of capital assets or construction of major capital projects not financed by another fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the District (internal service funds).

Notes to the Financial Statements June 30, 2015

1. Summary of Significant Accounting Policies (Cont.)

C. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The **General Fund** is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **District-Wide Environmental Fund** is a special nontax revenue fund established to pay costs associated with environmental responsibilities at any of the District's inactive landfill sites or any other property presently owned or acquired in the future. The District-Wide Environmental Fund is a special nontax revenue fund used to account for revenues related to any of the District's inactive landfill sites or any other property presently owned or acquired in the future that will have costs associated with environmental responsibilities.

The **Landfill Expense Mallard Lake Fund** is used to account for revenues and surcharges imposed on the users of the landfill. The revenues are restricted to pay for present costs, post-closure maintenance, improvements, and restoration and environmental expenses (including responses costs and costs incurred to third parties) incurred by the District for the Mallard Lake landfill site.

The Landfill Expense Greene Valley Fund is used to account for revenues and surcharges imposed on the users of the landfill. The revenues are restricted to pay for present costs, post-closure maintenance, improvements, and restoration and environmental expenses (including responses costs and costs incurred to third parties) incurred by the District for the Greene Valley landfill site.

The **Acquisition and Development Series 2000 Fund** is used to account for the payment of principal and interest on the bonds of the same name funded by an annual property tax.

The District reports the following major enterprise fund:

The **Golf Enterprise Fund** is used to account for the revenues and expenses associated with the Oak Meadows, Green Meadows and Maple Meadows Golf Courses. The golf courses were purchased in fiscal year 1986, 1989 and 1990, respectively, from general obligation land acquisition bond funds.

Notes to the Financial Statements June 30, 2015

1. Summary of Significant Accounting Policies (Cont.)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues and expenses are directly attributable to the operation of the proprietary funds. Nonoperating revenue/expenses are incidental to the operations of these funds.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. The District recognizes property taxes when they become both measurable and available in the year intended to finance. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as expenditures when due.

Licenses, charges for services and interest associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. Fines collected and held by the state or county at year end on behalf of the District also are recognized as revenue. Fines and permits revenues are not susceptible to accrual because generally they are not measurable until received in cash.

In applying the susceptible-to-accrual concept to intergovernmental revenues (i.e., federal and state grants), the legal and contractual requirements of the numerous individual programs are used as guidelines. Monies that are virtually unrestricted as to purpose of expenditure, which are usually revocable only for failure to comply with prescribed compliance requirements, are reflected as revenues at the time of receipt or earlier if the susceptible-to-accrual criteria are met.

The District reports unearned/deferred revenue on its financial statements. Unearned/deferred revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period, under the modified accrual basis of accounting, or is measurable but not earned under the accrual basis of accounting. Unearned/deferred revenues also arise when resources are received by the District before it has a legal claim to them or prior to the provision of services, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability or deferred inflow is removed from the financial statements and revenue is recognized.

E. Deposits and Investments

Cash and Cash Equivalents

For purposes of the statement of cash flows, the District's proprietary funds consider all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Notes to the Financial Statements June 30, 2015

1. Summary of Significant Accounting Policies (Cont.)

E. Deposits and Investments (Cont.)

Investments

District investments with a maturity of one year or less when purchased are stated at cost or amortized cost. District investments with a maturity greater than one year are stated at fair value in accordance with GASB Statement No. 31.

Fair value is based on published market quotes as of June 30th.

F. Property Taxes Receivable

Property taxes receivable are shown gross as the District historically collects over 99.5% of the taxes extended.

The District levies its real estate taxes by November for the subsequent fiscal year. Tax bills are prepared by the County and issued on or about May 1. The bills are payable in two installments, on or about June 1 and September 1. The County collects these taxes and remits them periodically. Property taxes attach as an enforceable lien on January 1 of the previous fiscal year.

G. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans).

H. Prepaid Items/Expenses and Inventories

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses, consistent with the consumption method of accounting.

Inventories are valued at cost using the first in/first out (FIFO) method and consist of merchandise for resale. The cost of such items is recorded as expenditures/expenses when consumed rather than when purchased.

I. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., bike trails, paths, roads, bridges, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Notes to the Financial Statements June 30, 2015

1. Summary of Significant Accounting Policies (Cont.)

I. Capital Assets (Cont.)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Buildings, infrastructure, improvements and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and Structures	20-60
Infrastructure	20-50
Equipment	10

J. Compensated Absences

Vested or accumulated vacation, sick leave and compensatory time are reported as an expenditure and a fund liability of the governmental fund that will pay it once retirement or separation has occurred. Vested or accumulated vacation, sick leave, compensatory time and employee retention incentives of proprietary funds and governmental activities are recorded as an expense and liability of those funds as the benefits accrue to employees.

K. Long-Term Obligations

In the government-wide financial statements, proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund financial statements. Bond premiums and discounts and gains/losses on refundings are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount and gains/losses on refundings. Bond issuance costs are expensed in the period incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

L. Deferred Outflows/Inflows of Resources

The District reports deferred outflows of resources on its Statement of Net Position. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in this category, the first of which is the unamortized loss on refunding reported in the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The other item is the outflows related to pensions, which represents pension expense that will be recognized in future periods.

Notes to the Financial Statements June 30, 2015

1. Summary of Significant Accounting Policies (Cont.)

L. Deferred Outflows/Inflows of Resources (Cont.)

The District reports deferred inflows of resources on its Statement of Net Position. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. Unavailable property taxes are reported in the statement of net position and the governmental funds balance sheet. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available. The District also reports deferred outflows related to pensions, which represents pension expense that will be recognized in future periods.

M. Fund Balances/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. None of the restricted fund balances result from enabling legislation adopted by the District. Committed fund balance, if any, is constrained by formal actions of the District's Board, which is considered the District's highest level of decision making authority. Formal actions include ordinances approved by the Board. Once adopted, the limitation remains in place until a similar action (adoption of another ordinance) to remove or revise the limitation. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the District's executive director through the approved fund balance policy of the District. Any residual fund balance of the General Fund is reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned and then unassigned funds.

N. Interfund Transactions

Interfund services are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except interfund services and reimbursements, are reported as transfers.

O. Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Notes to the Financial Statements June 30, 2015

1. Summary of Significant Accounting Policies (Cont.)

P. Implementation of New Accounting Standard

In 2015, the District adopted the provisions of GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, which has as its objectives improving the usefulness of pension information included in the general purpose external financial reports of state and local governmental pension plans for making decisions and assessing accountability. Adoption of GASB Statement No. 68 resulted in a restatement of beginning net position at July 1, 2014, and is described in Note 12. In addition, the Statement changed the requirements for information disclosed in the notes to the financial statements and information required to be presented as required supplementary information.

The District also adopted the provisions of by GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment to GASB Statement No. 68. GASB Statement No. 71 provides guidance on the recognition of pension contributions made after the measurement date.

2. Deposits and Investments

The District maintains a cash and investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements as "cash and investments."

The District's investment policy authorizes the District to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services. The District's investment policy does limit its deposits to financial institutions that are members of the FDIC system and are capable of posting collateral for amounts in excess of FDIC insurance.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity and yield.

At June 30, 2015, the District's cash and investments consisted of the following:

	Primary Government
Cash and Investments Cash with Fiscal Agent	\$ 314,980,388 331,174
	\$315,311,562

Notes to the Financial Statements June 30, 2015

2. Deposits and Investments (Cont.)

For disclosure purposes, this amount is segregated into four components: 1) cash on hand; 2) deposits with financial institutions, which include amounts held in demand accounts and savings accounts; 3) cash held with fiscal agents; and 4) other investments which consist of investments in certificates of deposit, U.S. Treasuries, government-backed securities and mutual funds as follows:

Cash on Hand	\$ 20,078
Cash with Fiscal Agent	331,174
Deposits with Financial Institutions	8,795,489
Other Investments	306,164,821_
	\$ 315,311,562

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount not less than 110% of the fair market value of the funds secured, with the collateral held by the District, an independent third-party or a Federal Reserve Bank.

Investments

The following table presents the investments and maturities of the District's debt securities as of June 30, 2015:

		Investment Maturities (in Years)				
	Fair	Less Than			Greater Than	
Investment Type	Value	One	One to Five	Six to Ten	Ten	
U.S. Treasury Obligations	\$ 137,843,338	40,965,317	51,433,136	25,890,725	19,554,160	
U.S. Agency Obligations	131,227,186	730,828	21,222,378	47,026,749	62,247,231	
Certificates of Deposit	4,299,476	3,697,573	601,903			
State and Local Government Obligations	32,794,821	3,782,207	5,890,328	3,488,833	19,633,453	
	\$ 306,164,821	49,175,925	79,147,745	76,406,307	101,434,844	

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed within a two-year period. The investment policy limits the maximum maturity lengths of investments to 30 years for landfill environmental funds and five years for all other funds (except for bond funds).

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The District limits its exposure to credit risk by primarily investing in obligations guaranteed by the United States government or securities issued by agencies of the United States Government that are explicitly guaranteed by the United States Government. The U.S. agency obligations that consist of FHLMC, FHLB, FNMA, GNMA and FFCB securities are rated A-1+ to AAA by a national rating agency. The State and Local obligations were rated A3 to AAA by a national rating agency.

Notes to the Financial Statements June 30, 2015

2. Deposits and Investments (Cont.)

Investments (Cont.)

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the District's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third-party acting as the District's agent separate from where the investment was purchased in the District's name.

Concentration of credit risk is the risk that the District has a high percentage of its investments invested in one type of investment. The District's investment policy requires diversification of investments to avoid unreasonable risk. At June 30, 2015, the District had greater than five percent of its overall portfolio invested in U.S. Government Treasury Obligations, U.S. Government Agency Obligations, and State and Local Government Obligations. This is in accordance with the District's investment policy.

Receivables

A. Property Taxes

Property taxes for 2014 attach as an enforceable lien on January 1, 2014, on property values assessed as of the same date. Taxes are levied by December of the subsequent year (by passage of Tax Levy Ordinance). Tax bills are prepared by the County and issued on or about May 1, 2015, and are payable in two installments, on or about June 1, 2015 and September 1, 2015. The County collects such taxes and remits them periodically. Since the 2014 levy is intended to fund the 2015-16 fiscal year, the uncollected portion of the levy has been recorded as a receivable and the entire levy as deferred revenue.

The 2015 tax levy, which attached as an enforceable lien on property as of January 1, 2015, has not been recorded as a receivable as of June 30, 2015, as the tax has not yet been levied by the District and will not be levied until December 2015 and, therefore, the levy is not measurable at June 30, 2015.

B. Notes

During fiscal year 2010, the District entered into an intergovernmental agreement with a local government for the sale of a portion of a property. No interest is due unless payment of principal installments is past due. Principal of \$150,000 was collected during the year. The balance due at June 30, 2015, is:

Fiscal	Annual
Year	Payment
2016	\$ 150,000
2017	150,000
2018	250,000
	\$ 550,000

Notes to the Financial Statements June 30, 2015

3. Receivables (Cont.)

B. Notes (Cont.)

5. Risk Management

The District is exposed to various risks of loss including property and casualty, employee health and workers' compensation.

The District has established a limited self-insurance program for workers' compensation and liability claims. The District is self-insured for the first \$250,000 for liability claims and the first \$500,000 for workers' compensation claims. Commercial insurance is carried for amounts in excess of the self-insured amounts. There has been no significant reduction in coverage in any program from coverage in the prior year. For all programs, settlement amounts have not exceeded insurance coverage for the current or three prior years. The District's self-insurance activities are reported in the Liability Insurance Fund, which is a special revenue fund.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Reported liabilities are actuarially determined and include an amount for claims that have been incurred but not reported. Claims estimated to be paid within one year in the amount of \$367,724 are recorded as a current liability in the governmental funds. The total claims liability as of June 30, 2015, was \$580,234.

Notes to the Financial Statements June 30, 2015

5. Risk Management (Cont.)

A reconciliation of claims liability for the current year and that of the preceding year follows:

	Workers' Compensation		General Liability	Total	
Claims Payable, June 30, 2013 Claims Incurred - 2014 Claims Payments and Changes in Prior Years'	\$	244,851 609,550	19,821	244,851 629,371

Claims Payments and Changes in Prior Years' Claims Estimate - 2015		(526,305)		(526,305)	
Claims Payable, June 30, 2015	\$	278,765	301,469	580,234	

The District participates in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC is a public entity risk pool established by certain units of local government in Illinois to administer some or all of the personnel benefit programs (primarily medical, dental and life insurance coverage) offered by these members to their officers and employees and to the officers and employees of certain other governmental, quasi-governmental and nonprofit public service entities.

The IPBC receives, processes and pays such claims as may come within the benefit program of each member. Management consists of a Board of Directors comprised of one appointed representative from each member. In addition, there are two officers: a Benefit Administrator and a Treasurer. The District does not exercise any control over the activities of the IPBC beyond its representation on the Board of Directors.

6. Long-Term Debt

A. General Obligation Bonds

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In addition, general obligation bonds have been issued to refund general obligation bonds.

General obligation bonds are direct obligations and pledge the full faith and credit of the District.

Notes to the Financial Statements June 30, 2015

6. Long-Term Debt (Cont.)

C. Changes in Long-Term Liabilities

Changes in governmental activities long-term debt during the fiscal year ended June 30, 2015, are as follows:

	Balances July 1			Balances	Due Within
	(Restated)	Additions	Retirements	June 30	One Year
General Obligation Bonds					
Payable	\$216,146,058	38,421,455	52,746,714	201,820,799	22,065,000
Environmental Cost Reserves	46,000,000			46,000,000	
Claims Liability	301,809	804,730	526,305	580,234	367,724
Compensated Absences	5,479,313	1,618,395	3,315,092	3,782,616	1,869,064
Net Pension Liability	4,207,377	3,878,031	2,573,006	10,658,414	
Net Other Postemployment					
Benefits Obligation	133,981	86,692		220,673	
	\$272,268,538	44,809,303	59,161,117	263,062,736	24,301,788

As described in Note 12, the adoption of GASB No. 68 resulted in a restatement of liabilities pertaining to the District's IMRF plan.

The General Fund, Zoological Fund, and Construction and Development Funds liquidate the compensated absences, net pension obligation and net other post-employment benefits obligation liabilities.

Changes in business-type activities long-term debt during the fiscal year ended June 30, 2015, are as follows:

	I	Balances July 1	Additions	Retirements	Balances June 30	Within One Year
		July 1	Additions	Retifements	Julie 30	One rear
Compensated Absences	\$	356,293	64,893	191,759	229,427	132,943

The Enterprise Fund liquidates the compensated absences liabilities.

Notes to the Financial Statements June 30, 2015

6. Long-Term Debt (Cont.)

D. Debt Service Requirements to Maturity

The bond debt service requirements to maturity are as follows:

Fiscal Year	Go	vernmental Activitie	S		
Ending	Gen	General Obligation Bonds			
June 30	Principal	Interest	Total		
2016	\$ 9,675,000	5,720,912	15,400,794		
2017	9,730,000	5,639,024	15,499,794		
2018	10,485,000	5,133,813	15,749,763		
2019	5,030,000	4,747,500	10,168,450		
2020	5,525,000	4,524,800	10,438,550		
2021	18,630,000	4,228,450	23,247,950		
2022	19,825,000	3,353,625	23,572,125		
2023	21,060,000	2,416,875	23,868,375		
2024	22,365,000	1,441,788	24,200,538		
2025	15,220,000	554,450	15,774,450

	¢ 120 520 000	27.701.025	150.016.455		
	\$ 138,520,000	37,781,925	178,916,475		

The annual requirements to amortize to maturity capital appreciation bonds outstanding as of June 30, 2015, are as follows:

	General Government		
Fiscal Year	Principal	Interest	
2016	\$ 12,390,000	3,034,208	
2017	12,390,000	2,439,640	
2018	12,390,000	1,800,911	
2019	12,390,000	1,116,366	
2020	12,390,000	384,402	
	\$ 61,950,000	8,775,527	

E. Advance Refundings

On April 14, 2015, the District issued \$29,270,000 in General Obligation Refunding Bonds, Series 2015 with interest rates of 2.00-5.0%, which were used to advance refund \$30,675,000 of outstanding 2008 Series bonds with interest rates of 4.54-5.00%. The net proceeds of \$34,529,258 (after payment of underwriting fees, insurance, and other issuance costs) were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for future debt service payments on certain maturities of the 2008 bonds. As a result, that portion of the 2008 bonds are considered to be defeased and the liability for those bonds has been removed from the District's financial statements.

Notes to the Financial Statements June 30, 2015

6. Long-Term Debt (Cont.)

E. Advance Refundings (Cont.)

Although the advance refunding resulted in the recognition of an accounting loss of \$3,800,572 for the year ended June 30, 2015, the District in effect reduced its aggregate debt service payments over the next nine years and obtained an economic gain (difference between the present values of the old and new debt service payments) of \$2,341,886.

During fiscal year 2006, the District issued \$68,590,000 General Obligation Limited Tax Bonds, Series 2005. Of the proceeds, \$27,609,883 has been deposited into an irrevocable trust to provide for the compound accreted value of \$38,965,000 of the General Obligation Limited Tax Bonds, Series 2000, maturing November 1, 2007 through November 1, 2019. As a result, the refunded portion of the 2000 Bonds is considered defeased and the escrowed assets and liability for the bonds have been removed from the financial statements.

During fiscal year 2012, the District issued \$35,610,000 General Obligation Refunding Bonds, Series 2012. Of the proceeds, \$38,131,779 has been deposited into an irrevocable trust to provide for the future debt service payments on certain maturities of the General Obligation Limited Tax Bonds, Series 2005A, maturing November 1, 2015. As a result, the refunded portion of the 2005A Bonds is considered defeased and the escrowed assets and liability for the bonds have been removed from the financial statements.

The defeased bonds still outstanding are shown below:

	 Outstanding June 30, 2015
General Obligation Limited Tax Bonds Series 2000* General Obligation Limited Tax Bonds Series 2005A General Obligation Bonds Series 2008	\$ 15,725,000 32,440,000 30,675,000
	\$ 78,840,000

^{*}Balance outstanding represents the compound accreted value of the defeased bonds at maturity.

F. Legal Debt Margin

The schedule of the District's legal debt margin as of June 30, 2015, is as follows:

Assessed Valuation - 2014		\$ 32,504,572,590	
Statutory Debt Limitation (2.3% of Assessed Valuation)	\$	747,605,170	
Less: General Obligation Bonds Outstanding		191,729,637	
Legal Debt Margin	\$	555,875,533	

Notes to the Financial Statements June 30, 2015

7. Individual Fund Disclosures

A. Transfers

Amounts transferred between funds are as follows:

Fund	Transfers In	Transfers Out
M: C

The purposes of significant interfund transfers are as follows:

The District-Wide Environmental Fund transferred \$2,640,000 to the General Fund as an operating subsidy.

The Landfill Expense Mallard Lake Fund transferred \$2,640,000 to the General Fund as an operating subsidy.

The Landfill Expense Greene Valley Fund transferred \$1,920,000 to the General Fund as an operating subsidy.

Notes to the Financial Statements June 30, 2015

7. Individual Fund Disclosures (Cont.)

A. Transfers (Cont.)

The Endowment Fund transferred \$626,030 and \$500,000 to the Dunham Wetland Bank and Wetland Aquatic and Riparian Program to transfer initial deposits for the establishment of the new funds.

The District-Wide Environmental Fund transferred \$698,820 to the Capital Improvements Fund to fund equipment purchases.

The District-Wide Environmental Fund transferred \$517,185 to the Oak Meadows Golf and Preserve Improvement Fund to cover 2014 and 2015 expenditures.

The General Fund transferred \$63,500 to the Golf Enterprise Fund as an operating subsidy.

B. Amounts due from (to) are as follows:

	Due From	Due To

Total	\$ 8,208,304	\$ 8,208,304

Notes to the Financial Statements June 30, 2015

7. Individual Fund Disclosures (Cont.)

B. (Cont.)

The purposes of significant interfund balances are as follows:

The District-Wide Environmental Fund, Landfill Expense Mallard Lake Fund and Landfill Expense Greene Valley Fund owe \$3,338,820, \$2,640,000, and \$1,920,000, respectively, to the General Fund for operating subsidies.

8. Commitments and Contingencies

A. Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

B. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

C. Landfills

The District owns nine landfill sites. All of the sites are closed with respect to waste operations, with dates of operation ranging from 1974 through 1999. Federal and state legislation, regulations and case law have imposed upon the owner of a landfill site economic responsibility for any environmental harm created by that landfill site.

That responsibility generally exists during the time the landfill site is operating and for up to 100 years after the site is closed. The District commissioned an outside report which was released in November 2012 in order to determine the most likely scenarios for the future of the nine sites. The District also performs an internal evaluation of the sites on an annual basis.

Four funds exist within the District that relate to potential future landfill site liabilities. Two of the funds may be used to offset future liabilities for any of the nine sites. As of the date of this report, the two remaining funds may only be used towards care of the Greene Valley and Mallard Lake sites. However, the principal within these two funds must be transferred forty years after closure; those dates being 2037 and 2041.

As owner of the landfills, the District faces potential liability with respect to environmental damage from these sites. On August 1, 1985, the District created two future environmental expense funds which received revenues from the then active landfill sites, with the purpose of protecting the District against any possible financial harm from any responsibility imposed upon the District for the active sites during construction and for the years following closure. On July 1, 1989, the District created an Environmental Responsibility Fund for revenues it received from the Mallard Lake landfill to protect the District against any possible financial harm relating to environmental damage.

Notes to the Financial Statements June 30, 2015

8. Commitments and Contingencies (Cont.)

C. Landfills (Cont.)

Both the Greene Valley and Mallard Lake sites are managed by third-party operators. These operators are contractually responsible for the post-closure care of the sites until projected future dates, at which time the Illinois Environmental Protection Agency (IEPA) has determined that no potential exists for environmental damage or liability. The operator of the Mallard Lake site achieved regulatory closure of landfill operations there in 2001, and is responsible for care of that site until 2101, one hundred years being the maximum period of liability for a closed landfill site. The operator responsible for the Greene Valley site closed prior to its regulatory closure date, and at that time a standard 30-year rule applied. The operator is thus responsible for any environmental clean-up costs through at least 2027. Since it has been determined that the operators are financially and operationally capable of meeting their obligations, the District has not recognized an annual portion of the estimated current cost of site care.

The aforementioned report concluded that the District landfill funds were adequate solely to address present and future environmental liabilities for all sites, but inadequate to address the 30 year reasonable worst case for the District Wide Environmental Fund and the 90 year reasonable worst case for the Mallard Lake Preserve.

Estimated future clean-up costs, as stated in Note 6 and accrued as a noncurrent liability in the government-wide financial statements, were determined by management making certain modifications to the original report.

(i) Blackwell Landfill

The District is the owner of a parcel of land in the Roy C. Blackwell Forest Preserve upon which there is located a sanitary landfill operated by the DuPage County Public Works Department which closed in 1975. The District has been monitoring that closed site and small amounts of hazardous contaminants have been found to have migrated from the landfill itself into other areas of the preserve. The United States Environmental Protection Agency (USEPA) has listed this site on the National Priority List for environmental cleanup. The District has assumed the cost of any testing and cleanup. The USEPA has provided the District and its contractor with a procedure for having the site proposed for deletion from the National Priority List. The noncurrent liability in the government-wide financial statements associated with this site is approximately \$24,200,000 of the \$46,000,000 total government-wide liability stated in Note 6.

(ii) Mallard Lake North Landfill

The District is the owner of a 31-acre property known as Mallard Lake North, on which a landfill had been operated by previous owners. In accordance with a 1995 agreement with the Illinois Environmental Protection Agency (IEPA), the District proposed a program of additional cover material, groundwater monitoring, leachate management and landfill gas management and has engaged an engineering firm to assist in these efforts. At the request of the USEPA, the District has completed construction of an upgraded landfill gas and leachate collection system and landfill cover improvements. The USEPA has not made any additional short or long-term requests for this site. The leachate collection system has been connected to the Village of Hanover Park's sewer system resulting in a 75% reduction in leachate disposal costs. Long-term monitoring and maintenance requirements have yet to be determined. The noncurrent liability in the government-wide financial statements associated with this site is approximately \$15,300,000 of the \$46,000,000 total government-wide liability stated in Note 6.

Notes to the Financial Statements June 30, 2015

7. Individual Fund Disclosures (Cont.)

C. Landfills (Cont.)

(iii) Meacham Grove Landfill

The Meacham Grove site (also referred to as the "Ajax Pit") is an old gravel pit on an 18-acre property, in which construction debris was disposed over a period of approximately seven years, from 1967 to 1974. The study concluded that all but the eastern slope of the landfill will require re-grading and reconfiguration. The noncurrent liability in the government-wide financial statements associated with this site is approximately \$300,000 of the \$46,000,000 total government-wide liability stated in Note 6.

(iv) Barnes Pit

Barnes Pit is a 32.5-acre gravel pit where undocumented dumping and open burning have occurred. The years of operation of this site remains unknown. Drums containing hazardous waste materials were uncovered in 1987. The drums were removed and the soil was cleaned to IEPA standards. In a worst-case scenario, the District has concluded that erosion repairs and bank stabilization would need to be performed. The noncurrent liability in the government-wide financial statements associated with this site is approximately \$700,000 of the \$46,000,000 total government-wide liability stated in Note 6.

(v) Oliver Hoffman Dump

Oliver Hoffman Dump is a 155-acre site, of which 0.5 acre has been utilized for the disposal of unknown wastes. In 1996, the District performed remediation work and, in 2000, received a "No Further Remediation" letter from the IEPA. In a worst-case scenario, the District has concluded that erosion repairs would need to be performed. The noncurrent liability in the government-wide financial statements associated with this site is approximately \$50,000 of the \$46,000,000 total government-wide liability stated in Note 6.

(vi) Wheaton Dump

Wheaton Dump is a 13.4-acre site which has been used as a District dump and as a car junkyard from the 1930s through 1979. Potential remedial work at the site appears to be limited to erosion repair and the monitoring of gas and groundwater. The noncurrent liability in the government-wide financial statements associated with this site is approximately \$1,600,000 of the \$46,000,000 total government-wide liability stated in Note 6.

D. Other Environmental Liabilities

The District owns a parcel of land, commonly known as the "White Farm" which was acquired in 1979. Subsequent to purchase, it became apparent that illegal dumping had occurred on the site for three years prior to the District's ownership and that contamination was present. In 1984, the District, IEPA, and the Illinois Attorney General entered into a Consent Decree to address the contamination. Capital Improvements in the form of a remediation action plan to address the surface soils and previously filled excavations has been completed. IEPA has agreed with the District's findings that the site is not the cause of the regional groundwater contamination issue and is not requiring a Remedial Action Plan for the groundwater from the District. IEPA and the District are in discussions to have the Consent Decree vacated. The noncurrent liability in the government-wide financial statements associated with this site is approximately \$3,850,000 of the \$46,000,000 total government-wide liability stated in Note 6.

Notes to the Financial Statements June 30, 2015

8. Commitments and Contingencies (Cont.)

E. Material Contracts

(i) Mallard Lake Preserve

The Mallard Lake landfill occupies a 230-acre site and was in operation from 1975 to 1999 and achieved regulatory closure in 2001. The District has entered into a contract with BFI Waste Systems of Illinois LLC, a wholly owned subsidiary of Republic Waste, Inc. (BFI), for the development of the Mallard Lake Preserve for scenic and recreational use. The contract continues in effect until 2101; 100 years being the maximum period of liability for a closed landfill site. At that time, all waste on the site should have decomposed sufficiently as to no longer present an environmental threat.

The District also entered into a contract with BFI, dated February 2, 1994, for the granting of land gas extraction rights and the generation of electricity at Mallard Lake. The facility commenced operations in November 1997. For the first 20 years of the contract, BFI is to pay 12.5% of gross revenues earned from the sale of electricity quarterly to the District. After 20 years, BFI is to pay 6.25% of gross revenues to the District. The contract is now passed the initial 20 years. The District anticipates a reduction in the revenues submitted by BFI. For all by-product production, the District is to receive 12.5% of the amount received by BFI or any purchaser of that company.

(ii) Greene Valley Preserve

The Greene Valley landfill occupies a 198-acre site and was in operation from 1974 to 1997. The District has entered into a contract with Waste Management of Illinois, Inc. (Waste Management) for the development of the Greene Valley Preserve for scenic and recreational use. The contract will continue in effect until 2027. Under regulations existing at the time of closure, it was deemed by the IEPA that all waste on the site will have decomposed sufficiently by that date to no longer present an environmental threat.

The District also entered into a contract with Waste Management, dated February 2, 1994, for the granting of landfill gas extraction rights and the generation of electricity at Greene Valley. The facility commenced operations in June 1996. For the first 20 years of the contract, Waste Management is to pay 12.5% of gross revenues earned from the sale of electricity quarterly to the District. After 20 years, Waste Management is to pay 6.25% of gross revenues to the District. The contract is now passed the initial 20 years. The District anticipates a reduction in the revenues submitted by Waste Management. For all by-products of production, the District is to receive 12.5% of the amount received by Waste Management or any purchaser of that company.

Notes to the Financial Statements June 30, 2015

8. Commitments and Contingencies (Cont.)

F. Construction Projects

The District has certain contracts for construction projects which were in progress as of June 30, 2015. The remaining commitments are as follows:

West Branch Wetland Mitigation	\$	565,457
St. James Farm Trail/Parking Improvements		204,377
St. James Farm Water/Sewer Improvements		208,873
County Farm Bridge Trail Improvements		159,091
Greene Valley Landfill Development Maintenance		188,705
White Farm Landfill Maintenance		161,957
Blackwell Fleet Building		185,296
Springbrook Creek Restoration		198,464
Oak Meadows Improvements	15	5,587,669

9. Other Post-employment Benefits

A. Plan Description

In addition to providing the pension benefits described, the District provides post-employment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual and union contracts. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the District's governmental and business-type activities.

B. Benefits Provided

The District provides pre- and post-Medicare post-retirement health insurance to retirees, their spouses and dependents (enrolled at time of employee's retirement). To be eligible for benefits, the employee must qualify for retirement under one of the District's two retirement plans. The retirees pay the blended premium. Upon a retiree becoming eligible for Medicare, the amount payable under the District's health plan will be reduced by the amount payable under Medicare for those expenses that are covered under both.

C. Membership

At June 30, 2015, membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits	29
Terminated Employees Entitled to Benefits but Not Yet Receiving Them	0
Active Employees	<u>234</u>
Total	<u>263</u>
Participating Employers	1

Notes to the Financial Statements June 30, 2015

9. Other Post-employment Benefits (Cont.)

D. Funding Policy

The District is not required to and currently does not advance fund the cost of benefits that will become due and payable in the future. Active employees do not contribute to the plan until retirement.

E. Annual OPEB Costs and Net OPEB Obligation

Net OPEB Obligation, End of Year

The District had an actuarial valuation performed for the plan as of June 30, 2014, to determine the funded status of the plan as of that date, as well as the employer's annual required contribution (ARC) for the fiscal year ended June 30, 2014. The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2015 was as follows:

				Percentage	
		Annual		of Annual	
Fiscal		OPEB	Employer	OPEB Cost	Net OPEB
Year End		Cost	Contributions	Contributed	Obligation
June 30, 2013	\$	79,724	49,752	62.41%	86,831
June 30, 2014		87,791	40,641	46.29%	133,981
June 30, 2015		174,436	87,744	50.30%	220,673
The net OPEB obligation a Annual Required Contribu Interest on the Net OPEB	ıtion Obliga	ation		ows:	\$ 173,543 5,359
Adjustments to Annual Re	equired	Contribution			(4,466)
Annual OPEB Cost Contributions Made					174,436 87,744
Contributions Made					07,744
Increase in the Net OPEB	_				86,692
Net OPEB Obligation, Be	ginning	g of Year			133,981

Funded Status and Funding Progress: The funded status and funding progress of the plan as of June 30, 2015, was a follows:

\$ 220,673

Actuarial Accrued Liability (AAL)	\$ 1,760,293
Actuarial Value of Plan Assets	
Unfunded Actuarial Accrued Liability (UAAL)	1,760,293
Funded Ratio (Actuarial Value of Plan Assets/AAL)	0.00%
Covered Payroll (Active Plan Members)	15,128,258
UAAL as a Percentage of Covered Payroll	11.64%

Notes to the Financial Statements June 30, 2015

9. Other Post-employment Benefits (Cont.)

E. Annual OPEB Costs and Net OPEB Obligation (Cont.)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Finding Progress, presented as Required Supplementary Information following the Notes to Financial Statements, presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial methods and assumptions - projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2015, actuarial valuation, the entry-age normal actuarial cost method was used. The actuarial assumptions included no investment rate of return and an initial healthcare cost trend rate of 7.0% with an ultimate healthcare inflation rate of 5.5%. Both rates include a 4.0% inflation assumption and 4.0% wage inflation assumption. The actuarial value of assets was not determined as the District has not advance funded its obligation. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2015, was 30 years.

10. Employee Retirement Systems

The District contributes to two defined benefit pension plans: the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system, and the Sheriffs Law Enforcement Personnel Fund (SLEP), which are administered by IMRF, an agent multiple-employer public employee retirement system. The benefits, benefit levels, employee contributions and employer contributions for both plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. None of the pension plans issue separate reports on the pension plans. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained online at www.imrf.org.

Plan Description

Illinois Municipal Retirement Fund (IMRF)

All employees (other than those covered by SLEP) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Pension benefits vest after eight years of service, for Tier I eligible employees.

Notes to the Financial Statements June 30, 2015

10. Employee Retirement Systems (Cont.)

Plan Description (Cont.)

Illinois Municipal Retirement Fund (IMRF) (Cont.)

Participating members who retire at or after age 60 with 8 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years and 2.00% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Participating members are required to contribute 4.5% of their annual salary to IMRF. The District is required to contribute the remaining amounts necessary to fund IMRF as specified by statute.

The employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with 10 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

The District's annual contribution rates for calendar years 2014 and 2015 was 11.99% and 11.10%, respectively. For the fiscal year ended June 30, 2015, the District contributed \$2,209,385 to the plan.

Sheriff's Law Enforcement Personnel

SLEP members, having accumulated at least 30 years of SLEP service and terminating IMRF participation on or after July 1, 1988, may elect to retire at or after age 50 with no early retirement discount penalty. SLEP members meeting these two qualifications are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 2.50% of their final rate of earnings, for each year of credited service up to 20 years, 2.00% of their final earnings rate for the next 10 years of credited service and 1.00% for each year thereafter. For those SLEP members retiring with less than 20 years of SLEP service, the regular IMRF pension formula applies. SLEP also provides death and disability benefits. These benefit provisions and all other requirements are established by State statutes. SLEP members are required to contribute 7.50% of their annual salary to SLEP. The District's annual contribution rate for calendar years 2014 and 2015 was 25.09% and 23.98%, respectively. For the fiscal year ended June 30, 2015, the District contributed \$478,609 to the plan.

Elected County Officials

In previous fiscal years the District had made contributions to the Elected County Officials Fund (ECO) which is also administered by IMRF, an agent multiple-employer public employee retirement system. The District no longer has employees participating in the plan and therefore made no contributions to the plan in the current fiscal year. Remaining activity in the plan is associated with retirees and beneficiaries.

Notes to the Financial Statements June 30, 2015

10. Employee Retirement Systems (Cont.)

Employees Covered by Benefit Terms

As of December 31, 2014, the measurement date for the net pension liability, the following employees were covered by the benefit terms:

	Regular	ECO	SLEP
Retirees and Beneficiaries Currently Receiving Benefits Inactive Plan Members Entitled to But Not Yet Receiving Benefits Active Plan Members	189 273 330	18 0 0	11 10 25
Total	792	18	46

Net Pension Liability

The District's net pension liability was measured as of December 31, 2014, for the year ended June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The combined net pension liability for Regular, ECO and SLEP for the year ended June 30, 2015, is \$10,658,414.

Actuarial Assumptions

The following are the methods and assumptions used to determine the net pension liability as of December 31, 2014 for each of:

- The actuarial cost method was entry age normal.
- The asset valuation method was market value of assets.
- The inflation rate was assumed to be 3.50%.
- Salary increases were expected to be 3.75% to 14.50%, average, including inflation.
- The investment rate of return was assumed to be 7.49%, net of pension plan expense, including inflation.
- Projected retirement age was from the Experienced-Based Table of Rates, specific to the type of eligibility condition, last updated for the 2014 valuation according to an experience study from years 2011 to 2013.
- The IMRF-specific rates for mortality (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For disabled retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for nondisabled lives.
- For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Notes to the Financial Statements June 30, 2015

10. Employee Retirement System (Cont.)

Actuarial Assumptions (cont.)

• The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	Portfolio	Expected
	Target	Real Rate
Asset Class	Percentage	of Return
Domostic Equity	290/	7.600/
Domestic Equity	38%	7.60%
International Equity	17%	7.80%
Fixed Income	27%	3.00%
Real Estate	8%	6.15%
Alternative Investments	9%	5.25 - 8.50%
Cash Equivalents	1%	2.25%
Total	100%	

Discount Rate

A single discount rate (SDR) of 7.49% was used to measure the total pension liability. The projection of cash flow used to determine the SDR assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and (2) the tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). For the purpose of the recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.56%, and the resulting SDR is 7.49%.

	\$ 5,253,671

Notes to the Financial Statements June 30, 2015

11. Future Pronouncements

Statement No. 72, Fair Value Measurement and Application. This Statement was issued to enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This Statement also will enhance fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial position. The District is required to implement this Statement for the fiscal year ending April 30, 2017.

Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This Statement revises existing standards of financial reporting for postemployment benefits other than pensions. This Statement replaces the requirements of Statement Nos. 45 and 57. The District will be required to implement this Statement for the year ending April 30, 2019.

12. Restatement

The implementation of GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27, resulted in restatement of governmental activities net position summarized as reflected in the Statement of Activities and as follows:

Net Position, June 30, 2014, as Previously Reported	\$ 621,961,448
Remove Net Pension Obligation	222,408
Add Net Pension Liability	(4,207,377)
Deferred Outflows Related to Pensions (IMRF)	1,230,736
Net Position, July 1, 2014, as Restated	\$ 619,207,215

13. Subsequent Events

On August 10, 2015, the District issued \$31,690,000 of General Obligation Limited Tax Refunding Bonds, Series 2015A. The proceeds from the sale of the bonds will be used to advance refund the District's outstanding General Obligation Limited Tax Bonds, Series 2005A and to pay expenses incurred in connection with the issuance of the bonds. The bonds will be paid over nine years with a final maturity date of November 1, 2024.

Required Supplementary Information Schedule of District Contributions

June 30, 2015

Fiscal Year Ended	Actuarially Determined Contribution	Actual Contribution	Contribution Excess (Deficiency)	Covered- Employee Payroll	Actual Contribution as a Percentage of Covered Valuation Payroll
6/30/2015	\$ 2,209,385	2,209,385		19,157,097	11.53%

Notes to the Required Supplementary Information

Valuation Date: Actuarially determined contribution rates are calculated as of December 31 each

year, which are 12 months prior to the beginning of the fiscal year in which

contributions are reported.

Methods and Assumptions Used to Determine 2014 Contribution Rates

Actuarial Cost Method Aggregate entry age normal.

Amortization Method Level percentage of payroll, closed.

Remaining Amortization Period 29-year closed period.

Asset Valuation Method 5-year smoothed market; 20% corridor.

Wage Growth 4.00%

Price Inflation 3.50% approximate; No explicit price inflation assumption is used in this

valuation.

Salary Increases 3.75% to 14.50%, including inflation.

Investment Rate of Return 7.49%

Retirement Age Experience-based table of rates that are specific to the type of eligibility

condition; last updated for the 2011 valuation pursuant to an experience study of

the period 2008 to 2010.

Mortality RP-2000 Combined Healthy Mortality Table, adjusted for mortality improvements

to 2020 using projection scale AA. For men, 120% of the table rates were used. For women, 92% of the table rates were used. For disabled lives, the mortality

rates are the rates applicable to non-disabled lives set forward 10 years.

Other There were no benefit changes during the year.

Information above based on valuation assumptions used in the December 31, 2012, actuarial valuation; note two year lag between valuation and rate setting.

2010	29,122	37,354	75.25%

Note to the Required Supplementary Information June 30, 2015

Budgetary and Legal Compliance

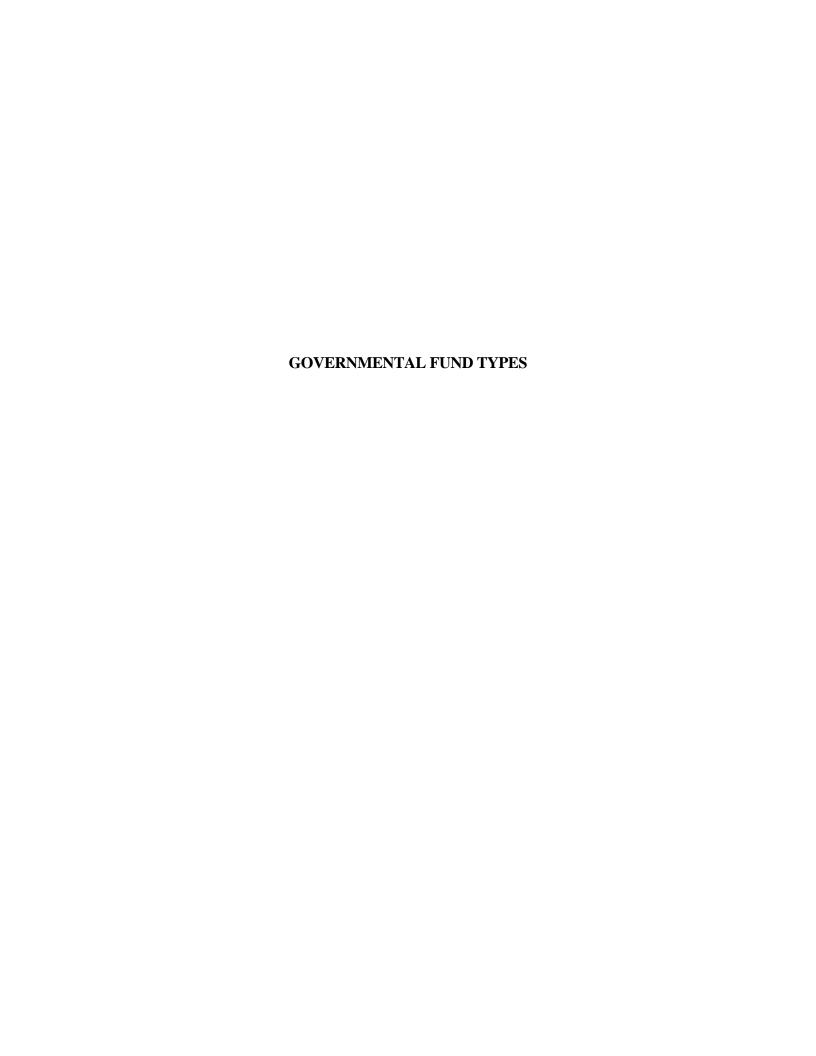

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general, special revenue and enterprise funds. Five-year budgets are adopted for capital projects funds financed with property tax revenues. For the Acquisition and Development capital project funds, the bond documents provide the spending authority and no annual budgets are adopted. All annual appropriations lapse at fiscal year end, except for construction and development funds which do not lapse for five years.

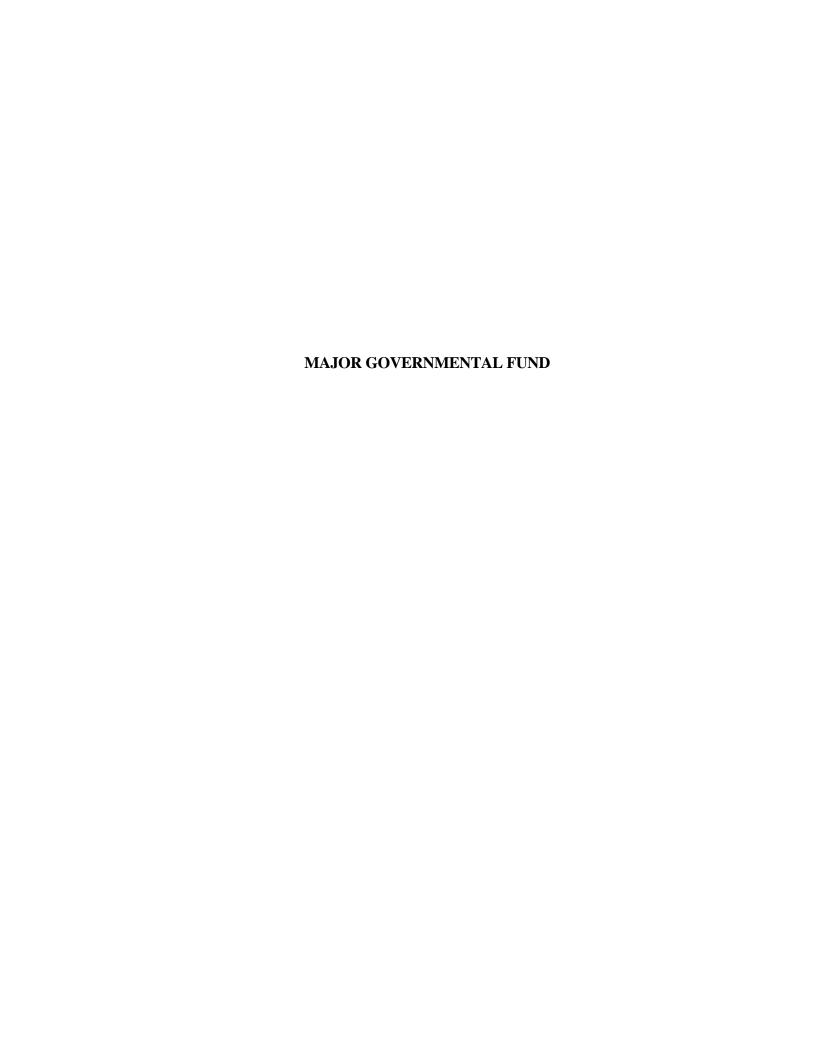

All departments of the District submit requests for appropriation to the District's executive director so that a budget may be prepared. The budget is prepared by fund and department and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget. The budget and appropriations must be adopted by September 30.

The final budget and appropriations include any changes approved during the year. During the current fiscal year, the District adopted an amendment to the annual appropriations ordinance. In all funds, expenditures may not exceed budgets at the individual fund level. Transfers between funds must be approved by the governing body. A budget was not formally adopted for the Willowbrook Wildlife Grant Fund.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

GENERAL FUND The General Fund is used to account for resources traditionally associated with governments which are not required to be accounted for in another fund.

NONMAJOR SPECIAL REVENUE FUNDS

The **Liability Insurance Fund** is used to account for revenues restricted for the payment of workers' compensation, unemployment and liability insurance or claims.

The **Illinois Municipal Retirement Fund** is used to account for revenues restricted for the payment of the District's share of contribution to the Illinois Municipal Retirement Fund.

The **Social Security Tax Fund** is used to account for revenues restricted for the payment of the District's share of the contribution for Social Security taxes.

The **Audit Fund** is used to account for revenues restricted for the payment of the annual audit of the District's financial records.

The **Zoological Fund** is used to account for revenues restricted for the erection, operation and maintenance of a zoological park.

The **Environmental Responsibility Fund** was established as a result of a court order. Commencing July 1, 1981, the District was obligated to deposit \$230,000. For each fiscal year thereafter, 25% of the royalties received were deposited directly with a minimum deposit amount of \$200,000 until a total of \$2,000,000 was reached. Although the \$2,000,000 maximum required by the court order was reached, the District did continue to make its annual deposit. Effective July 1, 1992, all funds in excess of the \$2,000,000 were transferred to the District-Wide Environmental Fund and no additional revenues will be deposited in this fund.

The money collected in this fund is to be used to correct any environmental damage caused by the landfill sites, installation of any facility to help prevent damage to the landfills, to satisfy any final judgment rendered against the District for damages to any person arising out of the use of the landfill sites, to pay for studies or research into environmental problems caused by the landfills and to pay the cost of compliance with statutes and regulations applicable to landfill sites.

The **Mallard Lake Preserve Non-Landfill Improvement Fund** is a special nontax revenue fund established in accordance with the consent order for Case 90MR549. Expenditures are restricted to non-landfill improvements such as landscaping, restoration, development of natural amenities and development of improvements at the Mallard Lake Preserve.

The Greene Valley Preserve Non-Landfill Improvement Fund is a special nontax revenue fund established in accordance with the consent order for Case 90MR549. Expenditures are restricted to non-landfill improvements such as landscaping, restoration, development of natural amenities and development of improvements at the Greene Valley Preserve.

The **Dunham Wetland Bank Program Fund** is used to account for intergovernmental wetland bank revenues that are to be used for the creation of wetland habitats within the Dunham Forest Preserve.

The **Wetland Aquatic Riparian Program Fund** is used to account for intergovernmental wetland bank revenues that are to be used for wetland preservation and protection District-wide.

The **Endowment Fund** accounts for all costs and expenditures incurred or anticipated for the long-term maintenance and improvement of district facilities and land and for the future purchase of property. Revenues deposited in the Endowment Fund must come from private sources.

NONMAJOR CAPITAL PROJECTS FUNDS

The **Construction and Development Funds** are used to account for revenues restricted for constructing, restoring, reconditioning, reconstructing and acquiring improvements for the development of the forest and lands of the District. In accordance with 70 ILCS 805/13.2, the appropriations for these funds do not lapse for a period of five years; therefore, these funds are maintained separately by year of tax levy. At the end of five years, any assets remaining are transferred to the General Fund.

The **Capital Improvements Fund** is used to account for general district-wide capital outlay.

The **Oak Meadows Golf and Preserve Improvement Project Fund** is used to account for improvements at the Oak Meadows Preserve. Improvements include the following: improving storm water retention, developing new wetlands, increasing the overall environmental quality of the preserve, and reducing the golf 'footprint.'

Acquisition and Development Funds are used to account for general obligation bond proceeds used for the acquisition and development of land.

The **Willowbrook Wildlife Grant Fund** is used to account for grant proceeds used for improvements at the Willowbrook Wildlife Center.

MAJOR ENTERPRISE FUND

The **Golf Enterprise Fund** is used to account for the revenues and expenses associated with the Oak Meadows, Green Meadows and Maple Meadows Golf Courses. The golf courses were purchased in fiscal year 1986, 1989, and 1990 respectively from general obligation land acquisition bond funds.

Statistical Section

This part of the Forest Preserve District of DuPage County, Illinois' statistical comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's overall financial health.

CONTENTS PAGES Financial Trends 156-165 These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time. **Revenue Capacity** 166-173 These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax. **Debt Capacity** 174-179 These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future. **Demographic and Economic Information** 180-181 These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place. **Operating Information** 182-187 These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District

Sources:

provides and the activities it performs.

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The Forest Preserve District of DuPage County, Illinois implemented GASB Statement 34 in 2002; schedules presenting government-wide information include information beginning in that year.

Note

The assessed valuation is an approximation based on the records maintained by DuPage County. Since most large taxpayers have numerous parcels of real property, it is possible to miss some valuations as well as some of the largest taxpayers.

Notes:

Taxing districts are separate and distinct governmental entities where all, or a portion of the government entity, lies within DuPage County.

- (1) Includes the City of Chicago (O'Hare Airport) for which a minor portion overlaps into DuPage County. The Chicago Park District and Chicago City Colleges taxing boundaries are coterminous with the City of Chicago.
- (2) Debt Percentage Applicable to County is calculated by applying the ratio of assessed value of the specific district to that portion which is in DuPage County. Percentages have been rounded to the nearest hundredth.
- (3) Represents general obligation debt, as reported by various governments. Overlapping governments without general obligation debt are not shown. Some data is an estimation and was compiled by a review of the bonded debt information filed with the DuPage County Clerk.
