

## RAIN ART

Spring showers bring May flowers, but they can help you create some funky artwork, too. Here's how!

### You'll Need

White or light-colored paper

Tray or cookie sheet

Water-soluble markers or watercolor paints

- Use the paint or markers to create different shapes on the paper.
- Place the paper on the tray or cookie sheet, drawing side up.
- Place the tray or cookie sheet outside while it's raining.

What happens as the rain falls? What if you leave the sheet out for a minute? Five minutes? What about during a drizzle or during a steady rain?
