

Meacham Grove

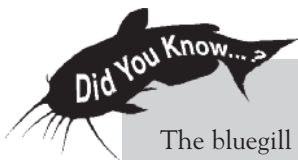

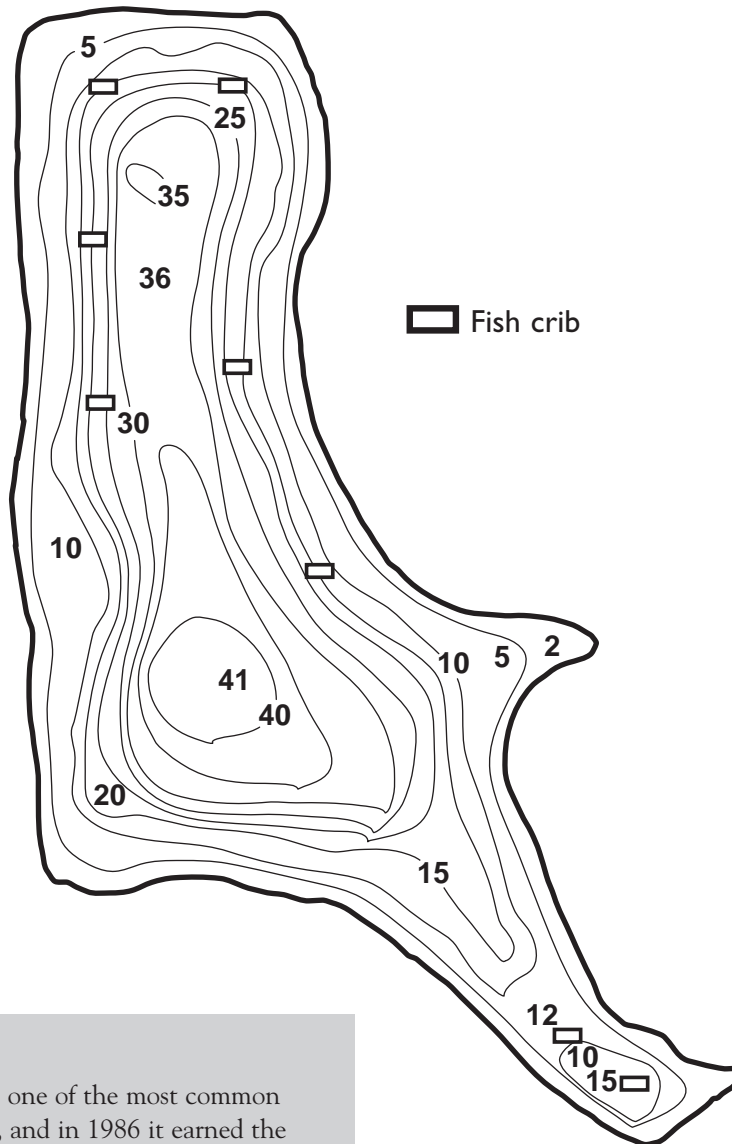

Maple Lake

North

Circle Avenue 0.25 mile north of Lake Street (Route 20) in Bloomingdale.
Moderate to steep 100-yard walk on gravel trail and turf.

Acres: 32

The bluegill is one of the most common fish in Illinois, and in 1986 it earned the title of Illinois State Fish. Bluegills generally prefer shallow water and will take to almost any natural bait, especially insects. For successful bluegill angling, use little or no weight with a very small bobber. Bluegills can often detect heavy weights and large bobbers and may drop the bait.
